CHARACTERISTICS:

series SWB-HW

- > **Three pass scotch** marine design.
- > Designed and **manufactured as per ASME** Section I or IV.
- > **Large furnace** chamber with **low fatigue coefficient**.
- > Low water side pressure drop across boiler.
- > **High efficiency**.
- > Completely automatic operation.
- > **Integrated control panel**.
- > Semi-Wet-Back design with **only a small refractory in the back**.

- A Furnace.
- B **Semi-Wet-Back** design.
- C Sightglass.
- D Gas side relief valves.
- E Small refractory in back door.
- F Hot water inlet & outlet.
- G Structural steel base.
- H Will suit any brand of burner.

- 1 First pass.
- 2 Second pass.
- 3 Third pass.
